CHINESE BOY GETS POST OFFICE JOB

Tim Ford, the brilliant Chinese boy born in Tonopah and who made such a remarkable record in the high school, has been appointed mail distributor in the local postoffice. Tim has manifested rare artistic talent and is also a member of the mandolin club and also the school orchestra. This morning the lad's mother, who has been bed-ridden for several years, left for Reno, accompanied by her two daughters, who also were born in this camp. The family will rejoin the father, Billy Ford, who has been given steady employment in the Hotel Golden.

MINING AT GOLD CRATER
Charles H. Barnard, formerly of Goldfield, is now at Gold Crater, in the Kawich country, where he is working sinking a shaft on what appears to be a very promising ledge with values running between \$4 and \$6. He is using a Dodge for hoisting ore from a depth of 100 feet.

NEW REGISTRY AGENT
Owing to the death of Mrs. J. L. Johnson, registry agent at Currant Creek, the county commissioners will have to take special steps to fill the vacancy for the accommodation of the voters of that district.

CHANGE OF OFFICE HOURS
Effective the 15th inst., the local freight and passenger offices of the T. & G. railroad in Tonopah, will close at 4 p. m. instead of 5 p. m.

NOTICE TO JURORS
All jurors except those excused for the term will kindly appear in the district court on Monday, June 17th, 1916, at 10 a. m.

L. E. GLASS,
Clerk of the District Court.
Adv713-15

FIND RICH GOLD SILVER PROSPECT

GOLDFIELD MEN OPEN MINE THAT YIELD HIGH ASSAYS

Joe Julian and Dan Nugent have returned from Cattle Springs, where for the past nine months they have been developing gold-silver properties owned by them. Cattle Springs is in Lincoln county, 100 miles southeast of Goldfield and seven miles north of the Groom mine, in Nye county. Julian and Nugent, who have worked in Goldfield mines for many years, have opened at a number of places a big vein which Nugent discovered ten years ago. In the course of this work, on the Golden Star claim, Nugent started a crosscut tunnel to cut at a depth of 250 feet an ore shoot which he uncovered on the surface. A short time before the men returned to Goldfield this ore was out and found to be four feet wide, containing gold-silver ore of milling grade.

At another point in the same vein, in the bottom of a 13-foot shaft, 10 inches of \$100 ore has been found. Julian and Nugent are the only men working in the district.

GRAND SPECTACLE FOR FOURTH JULY

If the plans of the Nye County Council of Defense do not miscarry, Tonopah will have a Fourth of July celebration that will size up as some show. The council is working in conjunction with the national board which suggests placing before citizens a spectacle of an intensely dramatic order. An outline has been received from Washington and the details have been committed to the care of Prof. Roy Cross, who has undertaken to train the young talent required for the occasion.

The anniversary will be devoted to impressing on the minds of all good Americans the lessons for which this country is fighting. The general outline of the spectacle is arranged for a hillside as the theater of operations and the local committee will try to secure the proper staging for Tonopah.

PENNY MILK BOTTLES FOR BELGIAN BABIES

Penny contributions for a fund to buy milk for the babies of Belgium and France are invited through the medium of milk bottles distributed over town by a committee consisting of Miss Blanche Robb, Alice Dumont and Mr. C. E. Waldner. The receptacles have been placed at a dozen places and the ladies are thankful that their cause is receiving such a warm support. They will empty the bottles once a week and render a weekly accounting of the receipts, so the charitable disposed will know what money is going to headquarters.

In this western country there is no other way of getting rid of the pennies and the public seems to appreciate the new method for utilizing the copper pieces. At one store where the milk bottle was placed last Monday the contributions were so generous that the merchant had to phone the ladies to come and remove the pennies which had accumulated to such an extent that there was no room for more.

RECRUITING OFFICER WILL ARRIVE NEXT WEEK

Sergeant Jeffery, United States recruiting officer in charge of this district, was expected here next Saturday evening when the Nye County Council of Defense has arranged for a patriotic parade to direct attention to the necessity for men of all ranks to engage in the active work of helping the government win this war.

This morning a telegram was received from the sergeant to the effect that he would not be able to come until several days after the date first mentioned.

JAKE GETS A WARNING

Jake Levens, better known as "Socialist Jake," was arrested yesterday by Chief of Police Grant for driving his team down Main street at break-neck speed and whipping his horses. Jake appeared before Justice Dunsen this morning and was sentenced to 60 days in jail. The court then suspended sentence on promise of good behavior.

IMPOSTOR CLAIMS WAR HONORS

After successfully posing as a discharged British army officer for several weeks, Frederick James Stephenson, who was arrested three weeks ago by federal officers, was fined \$50 in the justice court yesterday for obtaining dental services under false pretences.—Reno Gazette.

KRUGER WILL BE SENTENCED
Judge Averill will pass sentence on H. R. Kruger Saturday afternoon at 2 o'clock.

EAGLES OF TWO CAMPS UNITE IN A BARBECUE AT ALKALI

All arrangements have been completed by the Tonopah and Goldfield series of Eagles for the big barbecue and picnic at Alkali Hot Springs next Sunday afternoon and evening, and one of the largest gatherings ever witnessed in southern Nevada is expected at the popular resort.

The committees on arrangements have built a large new dancing pavilion 40 by 60 feet and covered it with green pines from the slopes of the adjacent hills so that the lovers of this popular form of amusement need have no fear of the hot sun. In addition to the big dancing pavilion the 49 camp has also been covered with green boughs and all the early day features as seen in Goldfield and Tonopah will be staged. The Eagles have secured a carload of special Eagle's money, so that no one need have any scruples about taking any chances on the man behind the wheel, as the proceeds all go to the benefit of the soldier Eagles, now in the trenches in France.

Jack Thompson of Goldfield has charge of the big feed and has arranged with the United Cattle and Meat company of that city to send their special representatives to the springs Saturday night and cook the roast beef and mutton so that everything will be in ship shape to commence serving the big crowd promptly Sunday afternoon.

The big cement swimming pool is being scrubbed and cleaned for this gala event and a large consignment of new bathing suits has been ordered from San Francisco and Los Angeles in order that all may take a dip in the refreshing waters.

Games and sports and lots of eats and drinks for all is the promise held out to the public by the committees in charge and anyone who enjoys outdoor fun will regret missing this, the greatest outdoor carnival ever attempted in southern Nevada. Everybody is cordially invited and welcome. Don't forget the date, Sunday, June 18th, all afternoon and evening. No admission. Bring your best girl and show her a good time at the Eagles' ball.

CAT SAVES A CITY FROM BURNING UP

A fire broke out at 2:15 o'clock Tuesday morning, which but for the wailing and crying of a small kitten might have resulted in another and perhaps more serious fire in Winnemucca.

Yesterday afternoon a member of the Ruteschler family had some pressing to do and did same with the aid of an electric flatiron, but after finishing forgot to turn the electricity off. This was in a rear room of the Ruteschler grocery store, on Bridge street near Second.

Last night the small kitten was locked up in the store and the family retired in their quarters upstairs. About 2 o'clock this morning, Miss Margaret Ruteschler was awakened by the sound of the cat's cries and went out on the back porch to see if she could find out the cause. The first thing she noted when getting on the porch were clouds of smoke coming out of the building, on the floor below.—Silver State.

SALE GIFT OF BOXES FOR THE RED CROSS

After many vexatious delays the ladies who collected prize packages for the benefit of the Red Cross have arranged a date of sale. The Musicians' Union band has consented to turn out with a ballyhoo to cheer the ladies and to stimulate the bidding, which will be under the direction of Messrs. Mutt and Jeff, better known in social circles as Harry Grier and "Water Company" King. They will be the high chief auctioneers.

The boxes contain articles of value ranging from 50 cents to as many dollars, and those who invest may rest assured there will not be any flim flam or sawdust packages in the assortment. Ladies are especially invited to have their husbands or escorts take an active part for there are many choice toilet articles that appeal to the feminine mind.

MAY CLOSE PLACES OF ILL-FAME IN RENO

The establishment of a military cantonment at the university will force the closing of all places of ill-fame within a radius of five miles of the university, according to the opinion of federal officials who have looked into the matter.

"The law states that no saloon can be conducted within half a mile of a military cantonment or training camp and no place of ill-fame can be maintained within five miles of such a camp," said United States Attorney Woodburn in discussing the subject this morning.

The military training camp at the university will open on Saturday for the training of 100 men for two months.

FIRE ALMOST BURNS BLIND ALTURAS WOMAN

Because she was blind and did not know that her house was on fire Mrs. Williams of Alturas narrowly escaped death by cremation Tuesday afternoon, when he home in that city burned down. Mrs. Williams was led from the burning house by a neighbor, who realized her plight and guided her to safety before Mrs. Williams knew that she was in danger. The fire was caused by lightning.

TEN DOLLARS REWARD

Any one giving information leading to the conviction of the party or parties guilty of throwing a huge rock through the rear door of the Power company's office last night will receive a reward of \$10.

JOHN D. GRANT,
Chief of Police.

TONOPAH PRAISED BY ALL VISITORS

Delegates to the Masonic gatherings are all enthusiastic about their reception and entertainment which they say beats anything ever tendered in other parts of the state. The visitors are particularly struck with the contrast between Tonopah and Reno where, they say, the sessions are conducted on a strictly business basis without the element of cordiality or sociability entering into the calculations.

"I never saw anything like it," remarked Mr. D. A. Williams of the Fallon Eagle, "and the only explanation I can make is that this is an exemplification of the spirit of the mining camp whose citizens think they cannot do too much for its guests. From the moment we arrived myself and wife have been going lay and night until we feel that we are presuming on our hosts. We found that we could not pay for anything and that the local Masons were keeping open house with abundant luncheon at all hours of the day and night. We expected to stop at a hotel and pay our way but there is a meal ticket at every turn in the road."

Rev. Thomas L. Bellam, chaplain of the grand lodge, is equally fervent in expressing himself about the reception and treatment of visitors. "We had some doubts about a mining camp even as big as Tonopah, taking care of the crowd that usually attend the session but, after our experience here, I say the mining camps put it all over the cities. Where would you find any body of men thinking of a rest room for their guests, supplied with the latest magazines, books, literature of all kinds, refreshments and the coolest spot in Nevada for resting up after the endless round of hospitality Tonopah has the rest of the state beaten to a finish."

FALLON PROSPECTORS CLAIM GOLD STRIKE

Last Sunday a party of prospectors made a trip through the oil and mineral district east of Fallon inspecting the property where it was reported a big gold strike had been made, says the Churchill Standard.

The party consisted of C. E. Bingham, Geo. Smitten, G. A. Foster and W. B. Nicholas, experienced men and familiar with the country traversed. The property found such favor with these prospectors that applications have been filed for leases and on their return they brought with them several specimens which are now being assayed, the report on which will be returned this week.

The field now being operated by Nevada Potash Syndicate was also visited and here preparations were under way for installing the new Starr drill recently purchased from a California company.

This monster drill created quite a sensation yesterday as it went through town on its way to the oil fields, as it is capable of drilling to a depth of 1500 feet.

MORE TEACHERS NEEDED BY VIRGINIA CITY SCHOOLS

The Virginia City board of school trustees has elected the following: Principal, George Morgan; vice-principal, Miss Ida M. Marx; Misses Mable Tannahill, Annie Righini, Mollie Somers, Myrtle McGrath and Mrs. Katie Quirk. Janitors, fourth ward, Emmet Wilson; first ward, Miss Lillie Fiewellen. The board voted to employ a third teacher in the high school. The board also decided to install a complete two-year commercial course in the high school.—Virginia City Chronicle.

PERSONAL

CHARLES BERNARD, the Goldfield mining man, spent today in Tonopah.

CHARLES BENSON, the pioneer plumber of Tonopah, returned to Fresno this morning.

MRS. DAN MURPHY and two sons took their departure this morning for Buckhorn, Eureka county.

R. VILES, accompanied by his wife and children, left on today's train for Spokane, where they will locate.

MRS. ELIZABETH O'BRAVOVICH was a passenger today for San Francisco, where she goes for a month's stay.

W. D. FORSTER, general superintendent of the Tonopah & Goldfield railroad, was a passenger this morning for Reno.

MR. and MRS. CLAY DODSON, arrived from Beatty on today's train. Mr. Dodson is one of the nine men called for the special army training service at the University of Nevada. For the present Mrs. Dodson will visit with her mother, Mrs. R. F. Gilbert.

A. L. HAIGHT, an attorney of Fallon, accompanied by his wife and E. L. Bingham, owner and editor of the Churchill County Standard, with his wife, arrived last evening in their own autos from Los Angeles, where they have been enjoying a month's vacation. They left this morning for home.

AMUSEMENTS

J. STUART BLACKTON PRODUCTION AT THE BUTLER

"Judgment House" which will be the attraction at the Butler this evening, was written by Sir Gilbert Parker, the noted novelist, who is a personal friend of Commodore Blackton and who came from England to be present at the filming of his book. This is the first production J. Stuart Blackton has made since his association with Paramount. It is marked with the same infinite attention to detail, and the same grandeur of production as "The Battle Cry of Peace," and his other productions. With Sir Gilbert Parker at his elbow, the play was discussed and built up step by step into a thrilling, vital piece of work that stands out from the screen and whose characters are so real one finds one's self expecting them to step out of the canvas. The conditions of England at the outbreak of the Boer war, with which the story largely deals, was to a certain degree, similar to that of this country at the present time. Scenes in South Africa, at the Kimberly diamond mines and in the desert, have been drawn with master strokes by Commodore Blackton. In addition to the feature, a Paramount Pictograph and Bray cartoon will be shown. Owing to serious illness Mrs. Lindsay was obliged to cancel the engagement of the Lindsay Concert company, billed for today.

Tomorrow, Little Madge Kennedy, the clever "kiddie" star, and George MacQuarrie, in "Gates of Gladness," also, the last and final episode of "The Hidden Hand," disclosing all the mysteries that have been carried throughout the entire story.

Yesterday was the hottest June day experienced in this city, according to the statement of the weather observer who overhauled his records and discovered that the reading of Wednesday was a fraction higher than the previous highest reading for the month of June, during the entire history of his station. The next highest was 91.5 and the maximum yesterday was an even 92 degrees. Today the maximum is a couple of degrees lower, with a still breeze blowing that relieves the situation materially. Another beneficial feature is that the humidity is down to 14.

In California they have to buy special thermometers to register the heat these days, since it is known that Needles reports 122 degrees. It may be mentioned that this day last year the mercury was hovering around the freezing point with a minimum of 35. Cooler weather is predicted for tonight and there is no telling to what an extreme the temperature may sink.

Monday was the hottest June day in Salt Lake in eighteen years. Salt Lake sweltered under a temperature of 104 degrees, according to the thermometer in front of the federal building, but this was moderated to 99.5 degrees by the official government thermometer on the roof of the Boston building, at 4 o'clock (sun time). The heat rose in waves from the concrete pavements of the sidewalks even on the shady sides of the streets, and the asphalt pavements took readily the impressions of automobile tires, as we'll as the heels of the pedestrian.

As he mopped the perspiration from his face, one of the crowd of temperature readers in front of the kiosk yesterday afternoon, remarked, on observing a record of 104, "Put this thing is made of iron, and, attracting the heat, the thermometers are naturally affected."

The highest temperature during the summer months since the records have been kept in Salt Lake was on July 30, 1889, when the mercury rose to 102. The highest June temperature was on June 28 and 29, 1900, when Old Sol sent the mercury up to 101. The highest temperature during June of last year was 92, and the hottest day of the summer was July 22, when the mercury rose to 97.

I loan you a watch to carry while I repair your own. I am the finest watchmaker who ever came to Tonopah. Emilie Merman at Robert's Grocery store. advM131f
